Lights 1. We noticed that the booms have been spiked. Whenever we would be transitioning in and out of the Principal Scenes on SL, we found that they were limiting our movement. Is there any way to fix this? 2. Some of the stuffing has fallen off of the USL cloud.
Sound Nothing today, thank you!

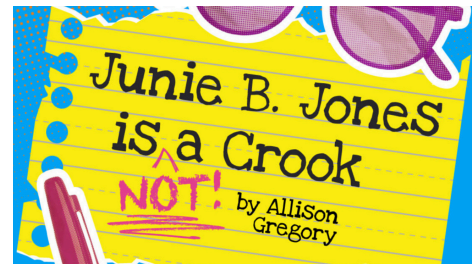

Miscellaneous

1. The run today was approximately 38 minutes
2. We cut the lines "GRAMPA FRANK MILLER. Shh, little Ollie just went to sleep. / JUNIE B. *(To audience:)* Ollie is my baby brother. I love him a real lot. Except I wish he didn't live at my actual house." On page 33, Scene 7.
3. We added Junie saying "Mom, Mom, Mom," on page 39, leading into Scene 10.

Scenery/Technical Direction

1. The principal door is able to swing open while it is being moved. Is there a way we can make some sort of latch/lock to remedy this?
2. Would it be possible for an actor to climb up the slide?
3. We have changed our minds, we will be using one of the classroom tables as the dining room table. Thank you for your flexibility!

Props

None today, thank you!

Costumes

1. We have an idea for JUNIE B's quick change out and into her overalls: When she exits after Scene 6 on Pg. 31, she will bring her overalls with her along with the flashlight, placing the overalls on the bed. Then she will grab and put them back on while onstage right after Scene 7 on Pg. 35. Would this be possible?

Lights

None today, thank you!

Sound

1. Can we have a "Prison doors closing" sound effect for when the prison door closes on JUNIE B in Scene 8 on Pg. 37

2. Can we have a school bell ring sound effect at the end of Scene 5 Pg. 29?

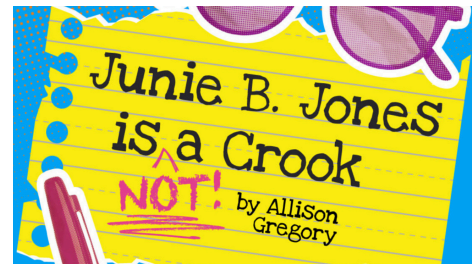

Miscellaneous

1. A line was added for GROUCHY TYPING LADY during Scene 8 Pg. 37. She says “Guilty” after MRS’s line, “...Why don’t we go talk to your teacher. Okay?” during the slow motion moment where JUNIE B gets ID’d in the police line up.
2. A line was added for JUNIE B during Scene 10 Pg. 39. She says “Ollie!” after MRS’s line, “Please don’t wake—”
3. The time of the stumble was approximately 78 minutes 31 seconds.
